

OUR RESULTS

Community hospital system cuts costs by \$2.1M

Provider PPI solution:

- ✓ Create framework at a two-hospital system for physicians and administrators to make mutually beneficial product decisions together.
- ✓ Connect and analyze data on system's \$6.1M spend in total joint-replacement category.
- ✓ Develop purchasing plan to cut costs in that category.
- ✓ Achieved 32% savings on total joint-replacement procedures.

**Results don't guarantee future performance. Individual results may vary.*

Case results:

\$2.1M in savings in total hip-replacement category
